Amana
Heating & Air Conditioning
**AMERICA'S BRAND FOR COMFORT**

1

1. Remove the Amana PTAC inside front cover to access the splash pad cover.
2. Using a ¼ inch nut driver or slotted head screwdriver remove the 3 screws from splash pad cover. Remove the splash pad from the Amana PTAC unit.

3. Press and **hold** the red pairing button for 5 seconds, then release the button. The blue LED light will flash slowly. This action puts the PTAC unit into RF (radio frequency) pairing mode. The unit will remain in RF pairing mode for 90 seconds.
