CURTAIN GUARDS

R-22 PTACs
PTCB10B

R-410A PTACs
PTCB10E

- **Improve Guest Comfort**

- > Improved airflow
- > Better cooling/heating

- **Save Energy**

- > Reduce run time
- > More efficient cooling/heating

- **Lower Operational Costs**

- > Reduce on/off time
- > Reduce component wear and tear
- > Reduce maintenance

Avoid losing guest comfort, energy efficiency and customers with Amana brand curtain guards. Designed exclusively for Amana brand DigiSmart® R-22 and R-410A refrigerant PTAC units, the curtain guards install in a snap with no interference to in-room scheduled maintenance. It's a simple solution to a costly problem. These matching guards are made from the same molded plastic as the front panel itself offering a seamless, finished look and not compromising any decor.

Give your guests uninterrupted, consistent comfort. Add the Amana brand's new curtain guards to your existing PTACs. Order them for any new or replacement units, too!
